ABOUT ME

Hi, I'm Kevin Phon, a junior Computer Science student at Cal Poly Pomona. My journey into computer science began with a desire to understand how technology can solve real-world problems and improve people's lives. After transferring to Cal Poly Pomona, I set a goal of building a strong foundation in software engineering while continuously exploring areas such as web development, artificial intelligence, and modern software technologies.

I enjoy learning by building. I see every project as an opportunity to improve both my technical skills and my problem-solving abilities. I believe the best way to grow as a developer is through curiosity, continuous learning, and hands-on experience. Currently, I am seeking opportunities to contribute to real-world projects where I can collaborate with others, learn from experienced developers, and create software that has a meaningful impact.

TECHNICAL SKILLS

Languages

JavaScript (ES6+)

Python

Java

HTML5

CSS3

Tools

Git

GitHub

VS Code

Command Line

Chrome DevTools

Concepts

Responsive Web Design

Accessibility (WCAG)

DOM Manipulation

State Management

EDUCATION

California State Polytechnic University, Pomona

2026 – Present

Bachelor of Science in Computer Science

Expected 2028

- Relevant Coursework: Data Structures, Algorithms, Software Engineering, Web Development.
- GPA: 3.5+ (CS Major focus)

FEATURED PROJECTS

FocusFlow Study Dashboard

Vanilla JS / CSS3 / HTML5

A minimalist productivity dashboard designed for deep focus. Features a customizable Pomodoro timer and a persistent task management system using the Web Storage API.

[Live Demo](#) [Source Code](#)

Professional Portfolio Website

HTML5 / Modern CSS / Vanilla JS

A high-performance, accessibility-first portfolio site built to showcase technical projects and skills. Optimized for all devices with a focus on clean, semantic code.

FUTURE PROJECTS

- **Accessible UI Component Library:** Developing a collection of reusable, WCAG-compliant UI components from scratch.
- **Campus Resource Navigator:** An AI-assisted tool to help students navigate campus resources more efficiently.
